502. TWO SMITH & WESSON "TIP-UP" REVOLVERS. Cal. 22.
First model. Rounded frame; square rosewood grips; Second model. With ivory grips. Both in poor condition.

503. SPANISH DOUBLE ACTION AUTOMATIC EJECTING REVOLVER.
Calibre .38 center fire. 4-in. barrel. Nickle plated. Almost new condition.

504. STARR ARMY REVOLVER. L. 5", Cal. 44.
Percussion, 6-shot, paper cartridge. Mark: *"Starr Arms Co., New York"* and *"Starr's Patent, Jan.* 15, 1856.
With the double trigger. By continuing to pull on the forward trigger (which raises the hammer and revolves the cylinder) the back of the trigger hits the front of a rear trigger causing the hammer to fall. Some of the original bluing still remains.

505. FARRETT (ENGLISH) SIDE HAMMER PERCUSSION BELT REVOLVER.
Entire length, 10½ in. Fine rifled London twist octagon barrel, calibre .36. Swivel ramrod. Swivel missing. Engraved German silver mountings. Frame marked "J. Tarrett, London." Closely checked grip with silver name plate, and German silver cap-box.

506. U. S. ARMS COMPANY BULLDOG REVOLVER.
Calibre .41 rim fire, 2-in. barrel, nickle plated. Rosewood grips. The nickle is rusted in a few places, but it is in good working order and of an unusual make.

507. WARNER'S FIVE SHOT REVOLVER. L. 3", Cal. .36.
Pocket revolver, good condition, rosewood grip, some parts showing original bluing.

508. WESSON & HARRINGTON POCKET REVOLVER.
Calibre .22. Nickle plated. Rosewood grips. Requires repairs, but is of good appearance.

509. TWO DOUBLE ACTION REVOLVERS.
"Young America." Calibre .22; British Bulldog. Calibre .32. Folding trigger. Both in good condition.

510. UNSIGNED BELT REVOLVER. L. 5", Cal. .36.
Octagon polished steel barrel, carved brass frame with round back trigger-guard and barrel-key.
No marks; a well-made pistol of good action, resembling the Colt with round back trigger-guard.

511. REVOLVER PERCUSSION FIRE. L. 5", Cal. .36.
Six shot, octagon barrel, trigger-guard acts as ejector. No Marks.
In a mahogany case with powder flask and bullet mould.

512. THREE SMALL REVOLVERS. Cal. .32.
"Defender," "Sportsman" and "Blue Jacket No. 2." Fair condition (3 pcs)

A NEW YORK COLLECTION

Part III. (402 Pieces)

FIRST SESSION---NOS. 1-202

(The measurement given on this and all pieces is the length of the barrel)

1. FOUR OLD TIME HUNTER'S BELT POWDER FLASKS AND DOUBLE CHARGERS.
   Three of leather, all interesting early pioneer souvenirs and one of canvas; and four with single charger. (8 pcs.)

2. TWO PAIR OF OLD LEATHER PISTOL HOLSTERS.
   One Mexican or South American, finished with gold braid; the other having rawhide saddle cover flaps. (2)

3. HUNTER'S BELT OF REINDEER SKIN.
   With hip loop for hunting knife sheath, etc. Adorned with bright metal bosses; Cartridge belt of canvas with Brass buckle, for 45 cartridges of high calibre. (2)

4. ENGLISH LEATHER GUN CASE.
   Good sole leather, but worn, with Holland's mark London, 1835; 3 Cartridge boxes (one filled); 2 Civil War leather pouches; and other miscellaneous material of the sportsman or collector. (A parcel)

5. PAIR OF OLD BRASS CANDLE SNUFFERS.
   Marked G. A. W.; an Egyptian tomb figure; a small kettle bronze Koro (Japanese) inlaid with gold and silver wire; Renaissance bronze oil lamp (the handle ending in a charming Masque head). (4 pcs.)

6. BRASS GASOLINE TORCH. Length 13 in.
With screw top; heavy brass pierced circular plaque with insignia of the U. S. Artillery; a scarce round wood canteen (Civil War) lettered US; French Powder Measure (apparently for a large charge); Rare brass cylindrical holder (for a soldier's kit) for tiny spoon, knife and pick. A parcel.

7. BULLET MOULD ALL IRON
Running six .36 (about) calibre conical bullets; another running 2 bullets, and a one-bullet mould. (3 pcs.)

8. FIVE PACKAGES OF COMBUSTIBLE CARTRIDGES
.36 Calibre. (5)

9. BULLET MOULD WITH BRASS MOUNTED WOODEN HANDLES
Running six conical bullets .38 Cal.; a two-and one-bullet mould. (3 pcs.)

10. PAIR OF GRIPPERS AND 13 BULLET MOULDS
All old time examples, mainly for one bullet. (14)

11. 36 GUN FLINTS
Many of small size; a short home made stiletto; Meteorites; very small quartz arrow-heads; etc. (A parcel)

12. EARLY ALL BRONZE BULLET .38 MOULD
With others. (8 pcs.)

13. BRASS BULLET MOULD (rare)
For .32, with steel slicer, very interesting early American piece; with others equally interesting. (6 pcs.)

14. MEERSCHAUM PIPE AND CASE
Just beginning to color; Exquimaux pipe (very interesting primitive form); cob pipes; two powder-horns (one a flat horn); etc. (A parcel)

15. ELEVEN GUNSMITH'S "CHERRIES" PERIOD 1800.
(11 pieces)
VERY RARE. The small drills of various types and sizes used for making bullet moulds.

16. ELEVEN GUNSMITH'S "CHERRIES"; PERIOD 1800.
The small drills used for making bullet-moulds, various types and sizes. Scarce (11)

17. RELOADING TOOLS
A miscellaneous parcel containing shell moulds, bullet moulds, measures, clamp, wadding, lead dippers, and many interesting and uncertain objects.
If it be true, as C. W. Sawyer writes: *"Sooner or later every firearm lover desires to prepare his own ammunition—a play-work of absorbing interest,"* he could not do better than take a chance on one of these three lots.

18. RELOADING TOOLS
A similar parcel.

19. RELOADING TOOLS
A similar parcel.

20. RELOADING TOOLS
Ideal for .38 and .44 Smith & Wesson; Marlin .32-.40; a .44, etc. (4 pcs.)

Carbines, Guns, Indian Bows and Arrows, Tomahawks, Arrow Heads, Harpoon, Sword Cane, Swords and Daggers, Japanese Suit of Armor and Swords

21. AIR GUN: UNMARKED. Length 18 in.
Octagon "tip down" barrel which breaks by raising a lever on top; iron chamber and trigger guard acting as lever; mahogany stock fitted with a plunger which screws into the air chamber. "*S. C. Dunn*" cut on the stock.

22. BALL-LAMSON BREECH LOADING CARBINE AND RAMROD. Length 21 in. Cal. .56. Walnut Stock.
A magazine gun, metallic cartridge centre fire; Breech-block cannot be opened until hammer is down, operated by a lever underneath. The magazine is under the barrel and loads at the rear. Mark: *E. G. Lamson& Co., Windsor, Vt., U. S. Ball's Patent June* 23, 1863, *Mar.* 15, 1864. Fine condition, proved by G. G. S.

23. INTERESTING AND RARE SECTIONAL CARBINE. Length 27½ in.
Percussion, converted from flintlock. Can be taken apart into three sections; the walnut fancifully carved as a Beaver's body and tail with cheek piece keys into the stock just below the lock; the half octagon barrel can be separated by the use of two ingenious flanges (which form the rear sight when the barrel is in place) and bears Belgian proof mark.

24. GREENE'S PATENT UNDERHAMMER RIFLED CARBINE 1857. Length 26 in. Cal. .535
Bolt action, breech loader, browned barrel and mounts, operated by a hammer underneath. Cartridges have bullets in the rear, the second one acting as a gas check; elevating rear sight; front sight missing. Mark: *Greene's Patent November* 17, 1857." Fine rosewood stock.

25. ENGLISH FLINT LOCK BLUNDERBUS. Length 19 in.
Bell muzzle, diam. 1¼ in.; ramrod in brass mounted slot; brass trigger guard and butt plate; Walnut stock; fine old lock marked with the broad arrow, crowned G. R. and "Tower," lock plate on left missing.

(Illustrated Plate 2)

46. 28. 25. 278. 281. 261. 286.

PLATE 2

26. JENKS BREECH LOADING NAVY CARBINE. Length 24 in.
Curled hammer at side of barrel cocks by opening outward, barrel is opened by drawing back top lever. Mark: *"Wm. Jenks U S N; RP; P;* 1845." Mahogany stock, brass bands and mounts; on lock plate *"Wm. Jenks"* and *"N. P. Ames, Springfield, Mass."* Good condition.

27. THREE POULTNEY & TRIMBLE CARBINES. Length 23 in. Cal. About .44.
Good specimens although two are somewhat rusty. (3)

28. MOON AIR GUN. Length 20½ in. Cal. .22.
Octagon barrel breaking at the breech for the insertion of the bullet; round steel chamber into which the air is pumped by means of a ratchet (attached) having a wooden handle; spur trigger and brass mounts; stock has cheek-piece. Ratchet is marked *"A. Moon N. Y."*
(Illustrated Plate 2)

29. SPENCER REPEATING CIVIL WAR CARBINE. Length 20½ in. Cal. About .48.
Somewhat pitted, but otherwise good; percussion; trigger guard acts as lever to draw out magazine; elevated rear sight and knife edge front sight.
This was the invention of a 19-year-old boy, C. M. Spencer, who took his model to President Lincoln. Lincoln had it tried out and ordered the War Department to give the boy a large order.

30. SHARP'S AND HANKINS BREECH LOADING RIFLED CARBINE. Length 23 in.
Combustible cartridge, centre fire. Mark: *"Sharpe & Hankins Phila"* and *"Sharp's Patent,* 1850."
It was the introduction of the Sharp in the hands of Col. Berdan's crack shots that originated the name and fame of "Sharpshooter."

31. AMERICAN BREECH LOADER RESEMBLING THE HENRY. Length 29 in.
Double trigger, one to cock and one to fire; hammer almost concealed. The first trigger (which also acts as the guard) depresses the cartridge chamber, a second movement returns it to place and the gun is ready to be fired. Octagon barrel; Calibre about .32.

32. BELGIAN RIFLE, PERCUSSION
Rosewood stock; ramrod; a cartouche near the butt stamped: *"Aug'te Petrie . . . Liege."*

33. EXTRA LONG ENGLISH FLINT LOCK GUN. Fowling Piece. Length 51 in.
Full stock, old Flint lock, rusty; part octagon barrel, no ramrod; lock marked: *"Warranted"* and has an etching of an Elephant and Canopy.

34. OLD FLINT LOCK RIFLE. Length 37 in.
Copper powder pan, band and trigger guard; original flint. "F" "IV" and "9559" on the barrel. In fair condition only, with a huge and interesting old flint-lock.

35. (ENGLISH) COMBINATION RIFLE AND SHOTGUN. Length 32 in.
Superposed barrels, percussion, .38 and .65 calibre, checkered grip (splitting); ramrod; engraved lock frame no marks.

36. ENGLISH HEAVY COMBINATION RIFLE AND SHOTGUN Length 33 in.
One about a .55 and one about .75 calibre; brass trigger guard, triggers work poorly; ramrod; the stock, finely marked wood with checkered grip has had incisions as if for inlays and on side is inserted a tiny glass covered (cracked) relic of some kind. Mark on barrel: "*London.*"

37. KETLAND AND THREE OTHER RIFLES
All derelicts. (4 pcs.)

38. TWO RIFLES, ONE ENGLISH
Converted percussion, bronze mounts in poor condition now. (2 pcs.)

39. LONG HENRY PERCUSSION RIFLE. Length 36½ in.
Part octagon barrel, ramrod, brass trigger-guard; stock cracked in two places; cap-box in butt which is brass bound. Lock and hammer engraved mark "Warranted." and "*Henry Phil'a*" on the barrel. The blow which dented the barrel probably cracked the stock.

40. HARPER'S FERRY U. S. FLINT LOCK RIFLE. Length 46 in.
In sound condition, marked: "*Harper's Ferry,* 1812." These early Harper's Ferry Flint Locks are getting scarce.

41. HARPER'S FERRY MUSKET. Date 1860.
Tape lock, percussion, converted from flint-lock; no ramrod; patch box in the butt.

42. NIPPES FLINTLOCK MUSKET. Length 42 in. Dated 1839.
Mahogany stock, no ramrod; brass pan, and trigger guard (cracked) and trigger missing (looks as if guard not original). Mark on lock: "*U. S. D. Nippes Phila.,* 1839," on barrel: "*P*" and "*J. C. S., J. H.*" on stock.
Example of a very rare contractor.

43. NORTH U. S. FLINT LOCK RIFLE, BAYONET AND RAMROD. Cal. .54. Date 1836.
Heavy barrel, and resembles the Hall. Fine condition, with mahogany stock with cartouche "N. Y. P." proof marks "*VT,*" on lock "*U. S. S. North Midl'tn Conn.* 1836"
This was the first breech loading arm in the United States.

44. REMINGTON BREECH LOADING MUSKET. Length 37 in. Cal. .45-.70.

Mahogany stock; elevating rear sight. Mark: crown and *AR O* 1884.

45. ROBINSON RIFLED PERCUSSION MUSKET. 1863. Length 40 in.

Walnut frame; no ramrod; stamped on lock "1863" U. S. under a Spread Eagle and *"E. Robinson New York."*

Gun of 1861; lock of 1863, made for the United States in 1863 by Edward Robinson of New York.

46. ROPER REVOLVING BREECH LOADING SHOT GUN

Walnut stock; Cal. .64, 4 shots. Mark: *Roper Repeating Rifle Co., Amherst, Mass., Pat. April* 10, 1866.

An interesting development of the firearm and always in demand among collectors. A good specimen of the first practical revolving arm.

(Illustrated Plate 2)

47. U. S. SPRINGFIELD ARMORY MODEL. 1898. Length 36 in.

Fine example in original blued condition; sliding rear sight, bolt action; mark as above and serial 276854; cartouche on frame, "U. S. A., 1900."

48. U. S. SPRINGFIELD 1864; BAYONET AND RAMROD

Breech loader; fine condition, the barrel dated 1866.

Allin's alteration to metallic cartridge. The first breech-loading system to be used in the Civil War, and done by E. S. Allin, master armorer at the Springfield Armory and a machinist of extraordinary ability.

49. U. S. SPRINGFIELD RIFLE. 1884.

Percussion; mahogany stock; ramrod; lock marked as above with Spread Eagle.

50. SWISS BREECH LOADING TELESCOPE RIFLE. Length 32½ in.

Blued barrel and lock, marked *"Waffenfabrik, Bern* 132746"; fine walnut stock and steel ramrod; elevating rear sight; serial 746.

With bolt and magazine mechanism, the barrel nearly encased, rod bayonet, etc., resembling the Magazine Rifle adopted in America in 1903.

51. TATNALL WINDSOR RIFLE 1856. Length 38 in.

Percussion, side hammer, brass trigger guard; no ramrod; lock ill fitting and a screw or two gone. Mark on lock: Crown and "1856 *Windsor,*" proof marks and 15 on barrel; *"G. Tatnall"* on frame.

52. WARD BURTON BOLT ACTION MUSKET. Length 38 in.
Walnut stock; ramrod; rear swivel and sight missing. Mark *"Ward Burton Patent Dec.* 20, 1859, *Feb.* 21, 1871 and *U. S. Springfield,* 1871.

A scarce musket made at the Springfield Arsenal in 1871.

Like a fork, the centre prong as a spear-head! on a long wooden pole. Entire length 85 in.

Canes, Bows and Arrows

55. IRISH SHILLELAGH. Length 26 in.
Fine old piece, apparently absolutely genuine, with a head as ugly as a bull dog and nearly as big.

56. THREE CURIOUS OLD CANES WITH BIRD HEADS
One very primitive of a curious twisted root as if grooved in gulleys, with bone-head handle as a bird's head; the other very light weight wood, one finished as a dove (entire bird); the other with pheasant's head with red comb and wattles. (3)

57. QUAINT FORMS OF CANES
Two of roots, one wound with brass snake; one of pear wood very shapely; four of bamboo and two other pieces (not canes). (9 pcs.)

58. LONG BOW. 6 ft., 2 in., AND 7 ARROWS
One arrow with flint point, the others with metal. These arrows appear rather South African than Indian.

59. NEW GUINEA PALM WOOD BOW AND 13 ARROWS
The bow of Palm Wood (very dark like ebony) from Arcmon, N. Coast of New Guinea; Length 5 feet; some of the arrows are feathered and some barbed, mainly with hammered iron heads.

60. SEVEN ASSEGAI THROWING SPEARS
With separate sharp wood points bound in. (7)

61. INDIAN (PROBABLY ALASKAN) BOW AND ARROWS
The bow painted in black and red, the upcurved ends wound with black and red wool thread, and four feathered arrows, with interesting old metal tips.

62. INDIAN BOW, QUIVER AND ARROWS
46 inch red and black bow, and string; an unusually interesting leather quiver finished in a wide band of rattan weave (damaged); the closing of the seam with raw hide thread done with the most beautiful precision; with 14 arrows, some feather tipped and barbed with metal points.

63. INDIAN BOW RAWHIDE COVER AND RAWHIDE QUIVER WITH ARROWS. Leather Thong.
Bow of very tough light colored wood, and 12 arrows, some feathered, and with flint or metal barbs

64. INDIAN ARROW HEADS AND SPEAR POINTS
14 cards on which are mounted 71 pieces from 1 to 4½ inches, with serrated or beveled edges. (71)
Fine examples of Quartz, the rare pink Jasper and other hard stones, beautifully modelled.

65. INDIAN ORNAMENT MADE OF HARDSHELLED TURTLE
White shelled turtle 6 in. long, put under a weight and flattened and adorned with leather tassels. Entire length 15 in.

66. INDIAN SOFT LEATHER BAG WITH BLUE BEAD CROSSES
Oval shape with four and three crosses in bright blue beads either side, fringed edges (partly worn away) and top unfinished. Length 8 in.

Twisted rope standard, and grip; head in a renaissance design radiating from the pointed tip, ending in points (two of which are broken).

95. TWO SLEEVES OF ANCIENT CHAIN ARMOR
One 18 inches and one 26 inches in length, width at top 12½ and 10 inches.

96. HUGE OLD WROUGHT IRON KEY. Length 23 in.
The head in a beautiful scroll renaissance pattern; may have been used as a sign.

97. VERY EARLY FORM OF OLD IRON KEY. Length 13¾ in.
Wrought iron, the key having two plain flanges, the end of the key hammered into a ring at handle.

98. ENGLISH COMBINATION RIDING CROP AND CONCEALED SWORD
The crop of light wood with crook blackthorn handle (somewhat abused); brass rim at the joint holds a spring which releases a good steel blade marked *"London."*
(Illustrated, see Frontispiece)

99. SWORD CANE; BRASS TIP
A black thorn cane (which is time cracked) with burl knob head conceals a triangular sword.
(Illustrated, See Frontispiece)

Japanese Swords and Suit of Armor

100. JAPANESE SHORT SWORD (No Scabbard)
Wild boar and monkey menuki, etc. Small iron guard inlaid with silver.

101. SIGNED JAPANESE SWORD. Lacquer Sheath.
Old iron guard, sentoku bronze band (no cap) and sheath in poor condition. Good signed blade but has been abused by having edge nicked.

102. JAPANESE LONG SWORD AND LACQUER SHEATH: SIGNED
Old wrought iron cap and band (the latter inlaid with gold chrysanthemum); iron menuki as bugs inlaid with gold; no guard. Fine signed blade.

103. JAPANESE LONG SWORD AND LACQUER SHEATH
